

LUMBER WORLD

'A Destination for your Imagination'

CANADIAN WHITE WOOD

The essence of Canadian white wood exudes a one-of-a-kind aesthetic, akin to a cherished piece of art, whispered from the heart of the north. Thier limbs reach skyward, clad in a silvery sheen, each knot and grain echoing the journey of growth from seedling to a majestic giant.

The wood's pale tones radiate warmth, a subtle echo of the sun that once kissed its leave. Canadian White wood is not merely a material; it's a living memory, a whisper of nature's enduring strength.

CANADIAN WHITE WOOD

SPECIFICATIONS

Nom. Width	At Edge Wide Face	Centerline Wide Face	Holes (Any Cause)
2"	3/4"	3/4"	3/4"
